MELT learning resources for school

Although this first newsletter was designed for teachers taking part in the MELT pilots, it has now been made more widely available so that **teachers can find out more about using the MELT Learning Resource Exchange (LRE)** for schools.

http://info.melt-project.eu/ww/en/pub/melt_project/news/newsletter.htm

"Primalingua" is looking for primary schools in different countries, which would like to participate in their part of the European Lifelong Learning Programme. On a web-based learning platform, primary school pupils, aged 8 – 12 years, work on interactive learning units. They discover other children's lives in different countries, their

environment and culture. The project starts in October 2008 and will end in June 2009

FROM NORWAY: Share and create! Educational tool for sustainable development.

The site includes activities complete with guidelines for how the pupils can investigate, discuss and communicate their results. When the results are submitted to the network, they are made available for others to view.

The programme aims at all levels of the education system.

<http://sustain.no/>

The STELLA web portal wants to address all people involved in **science education** who want to communicate experiences, cooperate, exchange ideas and thoughts on teaching methods and approaches. Are you a teacher or a school head? Are you carrying out or managing a science education project? Submit your initiative to the European catalogue of

science education initiatives!

<http://www.stella-science.eu>

EUROPEAN PUPILS MAGAZINE IS LOOKING FOR NEW WRITERS

EPM (European Pupils Magazine) is an international periodical about the History of Science and Technology, written by European students aged from 14 to 19. Students have an opportunity to write articles about a great number of scientific arguments treated from

a historical point of view. Currently EPM is looking for writers for its new issue. Participant pupils and teachers can win a trip to EPMeeting held in one of the project countries.

CLIL Fusion. Multilingual Mindsets in a Multicultural World
Building quality learning communities International CLIL Conference, Tallinn, Estonia, 24-25 October 2008. Organised by the European CLIL Cascade Network (CCN), The Estonian

Language Immersion Centre, The University of Jyväskylä (Finland). <http://www.ciliconsortium.jyu.fi>

Laguntza Zerbitzuko eTwinning plataforma berria ezagutarazteko jardunaldi bat antolatu zuen CNICE-k Madrilén joan den ekainaren 9an. Bertara hurbildu ziren erkidego guztietako ordezkariak, horiek baitira, norbera bere lurraldean, webeko kudeatzaileak. Interfazak diseinu berria izateaz gain, atal gehiago eskainiko digu. Horretaz gain esan behar da,

euskararen presentzia asko handitu dela. Urteko txostena azaldu zuten: 40.000 ikastetxe erregistratuta Espainian. Horietatik 60 gure erkidegokoak dira. Bileran entzundakoen artean kit berriak sortu dituztela azpimarratzekoa da, gehienak zientzietakoak zirela nabarmendu behar delarik.

Ikasmateriaia

I SPEAK FOOTBALL is an EU project to promote languages around the **EURO 2008 Championships** in Austria/Switzerland. Football is an international sport and a universal language. The team spirit of players from different countries and backgrounds is a daily routine at both top clubs and smaller European teams. The knowledge of more than one language is a must for every footballer aiming for an international career, as is the ability to interact and socialize in a new country. A series of **radiospots, interviews and podcasts are available for download on this website**. They are broadcast by stations all over Europe and can also be played in football grounds before matches and at half-time. The spots present a football atmosphere in a multilingual, context, with phrases and statements from football stars on languages, sports, and intercultural cooperation.

XPERIMANIA CONTINUES IN OCTOBER

The first year of "Xperimania – From molecules to materials" was a success: The competitions collected all together 450 submissions from 18 European countries!

<http://www.xperimania.net>

VOLVOX WEBSITE

The **Volvox project** team is a group of biology teachers and specialists from ten countries across the European Union.

The trial Volvox web site aims to provide secondary school biology teachers and others with proven laboratory protocols, simulations, classroom activities and numerous other educational resources. This **includes resources to download and use in the classroom or school laboratory plus computer simulations to use on-line**. All of these resources are free for non-commercial use by teachers. Recently the resources have been updated, and the whole web site will be completed in October 2008.

<http://www.eurovolvox.org/>

Helping primary and secondary science teachers to teach inspirational science in the classroom is one of the key aims of **Planet Science**: information , ideas, classroom resources
